

KDD CONSTRUCTION LTD

About Me

With extensive experience across specialist installation, logistics, project delivery, and contract management, Nikolay Todorov plays a key role in overseeing commercial and operations performance at KDD Construction. He ensures projects are delivered in line with contractual obligations, programme requirements, and quality and safety standards.

Nikolay brings end-to-end construction expertise, managing projects from pre-construction through delivery while supporting tendering, contract negotiation, risk management, and cost control. His leadership strengthens supplier relationships, improves coordination across project teams, and supports efficient, profitable delivery.

Having progressed from specialist cladding and façade installation into senior project and contracts management roles, Nikolay combines technical knowledge with strong commercial awareness. He is committed to driving performance, maintaining compliance, and supporting the successful delivery of complex construction projects.

Qualifications:

- NVQ Lv7 Senior Construction Management
- NVQ Lv6 Construction Site Management
- NVQ Lv3 Cladding Systems
