About Me

Chris Dewar brings over 25 years of construction industry experience, providing commercial leadership across refurbishment, new build, façade, and high-end residential projects. As Commercial Manager at KDD Construction, he is responsible for overseeing financial performance, contract compliance, and commercial risk management to ensure projects are delivered profitably and efficiently.

Chris combines strong commercial awareness with practical project knowledge, managing procurement, valuations, cost reporting, and final accounts while maintaining close coordination with clients, subcontractors, and project teams. His proactive approach to change management and risk identification helps safeguard project performance and supports informed decision-making throughout delivery.

With extensive experience across façade and envelope packages, complex refurbishments, and large-scale developments, Chris focuses on cost control, contractual clarity, and value optimisation, ensuring projects are delivered to a high standard, on programme, and in line with client expectations.

Qualifications

- NVQ Lv7 – Contract Administration
